Testimonials

After settling into my new old (90 year old) home, I felt tired. Even though the space was new for me, the space felt like it needed a refresh beyond the painting, repairs and cleaning just completed. I called on my friend, Dannielle, with her spirit guided sensitivities and knowledge of sacred ritual to give my home a lift. With Dannielle's masterful guidance, we created a marvelous ritual with drumming, chimes, blessings and smudging. We "dusted" all the nooks and crannies and blessed each space for my new life there. Now my home sparkles in every way and feels like a welcoming, energizing and peaceful space for me and my guests.

For homes and any work or gathering space, I would recommend a healing and blessing ritual by Dannielle. Her work is guided by deep wisdom and a loving heart. There is a difference between going through the motions and working with a master. Dannielle is definitely a master in bringing the sacred into your living spaces. Call her today! May your home and heart be blessed.

I felt there was a real shift in the Board of Directors with Dannielle's blessing ceremony for our new building--a much deeper opening to possibilities and action steps to nourish the flow for sustainability.

My apartment was formerly occupied by a dear friend, R., who committed suicide. I wanted to move there to be nearer my garden and to take care of the lovely gathering space R. created, but it felt like a part of his sadness was still lingering. Dannielle led myself and some friends through a lovely ceremony, offering blessings for R., and asking for the space to become my home. Since then, I feel welcome and warm in my home, and am able to remember R. fondly while making the space mine. Dannielle's ceremonies are a joy to be part of and the positive effect lasting.

My husband and I had been through a long and difficult journey that created much uncertainty as to whether we would continue to be together. After working diligently several months with a couples' counselor, we made great progress and recommitted to our marriage. There was much healing to do, though, and one aspect of our healing was to clear our home of negative energy that had accumulated through arguments, hurt and anger. We reached out to Dannielle for her clearing talents.

As the three of us walked from room to room, Dannielle inquired as to how we used the room and what experience we had with that room. Each had its own story and she used each room's unique energy and purpose to clear it and bless it. Thank you, Dannielle, for helping us - and our home - heal.
